

Dear [FirstName],

How often do you onboard a new employee only to see them leave the company before they reach their full potential?

A report from the Bureau of Labor Statistics stated that on average, an employee's tenure at any one job is only 4.2 years, down from 4.6 years just two years prior. So why the decline in tenure? A major factor is the lack of career growth opportunities.

There's an easy solution to this. Develop the talent you already have and promote from within. To help make this easier, we've partnered with Sage, the market and technology leader for HRMS, to offer talent development solutions that will promote loyalty within your team and put you ahead of the competition.

With our help, your company and your staff can enjoy these benefits:

- A developed career path process.
- Turnover reduction.
- Improved productivity.
- An in-house talent pipeline.

- Lower recruiting costs.
- Improved succession plans.
